## **DETAILED ACTION**

### ***Election/Restriction***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 19 and 20, drawn to method of player tracking, classified in class 463, subclass 42.
- II. Claims 62 - 87\*, drawn to method of allocating a bonus pool, classified in class 463, subclass 25.

1. The inventions are distinct, each from the other because of the following reasons:  
Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I, as claimed has separate utility such as use in a gaming environment without any alteration of bonus jackpots or pool segregation. Player tracking is distinct from game payout management. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

Art Unit: 3714

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).

\*It is also noted that applicant submitted two preliminary amendments on April 6, 2001. The first was contained on the application transmittal and requested the cancellation of claims 1-18, 21-61, and 77,81 and 82. However, 77, 81 and 82 were not present in the original file. They are added in the second preliminary amendment. Furthermore, cancellation of these claims would result in confusion as many claims are dependent upon them and have not been appropriately amended. Therefore, claims 19, 20 and 62-87 remain pending in the application and applicant should re-direct cancellation as desired with the response to this office action. Applicant is reminded to amended dependent claims accordingly when canceling any claims in a file.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to J. Harrison whose telephone number is (703) 308-2217.
